Tenugui are Japanese traditional hand towels

The history of tenugui dates back to the Heian period (AD 794 - 1192), when they were very precious and only used for religious shinto ceremonies. This fabric is woven on a shuttle loom by craftsmen who take the time and make the effort to do their job beautifully. Special fancy twisted-design yarn is used for the weft, giving this body towel a light and crisp feel. This fabric dries quickly, so we recommend it especially for travel and trips to the gym.
